

NMITE Records Retention Schedule 2021-22

The Records Retention Schedule documents the length of time NMITE records should be retained in order to comply with legal, regulatory and operational requirements.

The retention schedule is also used to ensure that NMITE balances the requirement to not hold on to records unnecessarily with the need to prevent the premature disposal of information we are required to keep. Retention periods outlined in the schedule are applied to records in whatever medium they are held (paper, electronic etc).

This Records Retention Schedule is compiled using the JISC records retention guidance 2019.

Disposal of Records

At the end of the designated retention periods the record can be destroyed using the appropriate method. This may be 'deleted' for electronic records or disposed of for recycling in the case of non-confidential paper records. All **confidential** records, including those containing **personal** or **financial** information should be disposed of using confidential waste disposal. A record should be kept of the destruction.

Review of Schedule

The Records Retention Schedule is reviewed on an annual basis or earlier if the are changes in legislation or new activities which need to be included.
