

Attendance Monitoring Policy

1.	Introduction.....	1
2.	Attendance requirements.....	1
3.	Monitoring Attendance and Engagement	2
4.	Follow-up Procedure	2
5.	Roles & responsibilities	3

1. Introduction

- 1.1 NMITE recognises that attendance is a key aspect to engagement, retention, progressions, and attainment. Students are active participants in their learning experience and are expected to take responsibility for achieving their potential through engaging fully with those experiences and with the requirements of their programme.
- 1.2 This Policy sets out the processes employed by NMITE to monitor student attendance and engagement on all programmes of study. It aims to be a supportive measure which has the potential to indicate those students at risk of leaving their course early and/or failing their programme.
- 1.3 While there are additional requirements relating to attendance for the UK Visas and Immigration Department (UKVI) Tier 4 sponsored students, this policy is applicable to the student body as a whole¹.

2. Attendance requirements

- 2.1 Students are expected to aim for 100% attendance. Failure to meet attendance levels of at least 80% of the scheduled learning and assessment activities during each FHEQ Level may impact upon your registration status as a student.
- 2.2 Attendance means that students should be present each day (Monday to Friday) for all learning activities in accordance with the published timetable.
- 2.3 Engagement means that students must engage with all learning activities which form part of their programme of study, subject to absence only for medical reasons or other personal reasons agreed in advance with the module lead.
- 2.4 NMITE is required to maintain attendance records for all Tier 4 sponsored students and to report absence to UKVI. This monitoring will comply with the requirements

¹ NMITE is required to report all Tier4 sponsored students, who fail to attend and have no satisfactory explanation for the absence, to the UKVI with the consequence that their sponsorship may be withdrawn, and they will be withdrawn from their studies at NMITE.

of the UKVI, and students will receive information on this process and the implications of any absence as part of their enrolment at NMITE.

3. Monitoring Attendance and Engagement

3.1 Attendance and engagement is monitored via a bespoke portal which links the 'My Attendance' tile on MyNMITE and 'interactions' on NMITE systems. This is monitored on a bi- weekly basis for the following reasons:

- i. Check welfare – to ensure that absences are followed up to ascertain reason, barriers to attendance and provide support where appropriate.
- ii. Monitor engagement in programme- to support students to maintain progress with their module and overall programme.
- iii. Extenuating circumstance - in the instance that EC claims are submitted the attendance and engagement portal may be considered by the EC committee
- iv. Team working strategy- in the event that this is evoked by members of a team, information from the attendance and engagement portal can be provided to the module lead and can be considered as part of the meeting with students to assess learning outcomes achieved during the module.

4. Follow-up Procedure

4.1 If a consecutive two days of absence is noted the student services team will make contact via email/ teams to establish wellbeing and anticipated length of absence. In this instance students will be reminded that if they are off due to ill health or known reason- they are to inform their module lead (copying in student services) via email. Students are encouraged to maintain contact for the duration of the absence (as would be required in a place of work).

4.2 Instances of illness or other unforeseen circumstance that affect an assessment must be reported to the module lead or Student services, and where relevant, an Extenuating Circumstances claim can be made online (via MyNMITE) and completed with the relevant evidence (e.g. doctors or hospital note). Further details are found in the Extenuating Circumstances policy.

4.3 If a pattern of regular absence is identified, it will trigger a process of communication and support, which will encourage students to resume their studies. NMITE will endeavour to identify the reason for the absence and provide appropriate support if this is required. This includes:

- i. the student being invited to attend a meeting with Student Lifecycle Manager and Personal Tutor to establish support required and clear expectations for attendance and any further barriers to this.
- ii. If there is no maintained improvement in attendance; the student will be invited to attend a meeting with the Student Lifecycle Manager and

Programme Lead, to identify if a formal support plan is required and to reinforce clear guidance of barriers to achievement and progression that may occur due to lack of attendance/engagement.

iii. The final escalation point is the student being invited to a meeting with the Academic Director and Director of Student Lifecycle; and in line with the Student Contract – Terms and Conditions, the student will be offered two opportunities to attend a meeting. If the student fails to attend, they will be presumed withdrawn and will receive formal notification of this from Registry.

4.4 The following policies may be considered at any point in the process of supporting the student attendance and engagement.

- Extenuating Circumstances Policy
- Student Disability and Reasonable Adjustment Policy
- Fitness to Study Policy
- Leave of Absence policy

5. Roles & responsibilities

5.1 Students must maintain attendance in line with 2.1 of this policy and register their attendance on campus daily via the 'My Attendance' tile on My NMITE. In the event of an absence to communicate this to their module lead and student support.

5.2 Student Lifecycle Manager will monitor and action steps in the procedure as required, maintain clear records of actions.

5.3 Personal Tutors- support adherence to this Policy and attend meetings as requested by Student Lifecycle Manager to support attendance and engagement, also to raise attendance during each PT meeting and reminds student of the importance of this and the policy.

5.4 Module Leads- maintain communication regarding attendance and engagement concerns with Student Lifecycle Manager.

5.5 Program Lead/ Academic Director- Reiterate at the start of (and mid) FHEQ level meetings the importance and purpose of the policy. Support the escalation of support meetings to maintain attendance and engagement levels amongst enrolled students.

5.6 Director of Student Lifecycle – maintain oversight of any emerging concerns and support the final escalation point meetings, advising student on options for continuation and completing any procedural communications.
